Flexible Spending Account Worksheet

When determining how much you would like to contribute to your Flexible Spending Account, you should keep in mind the following:

- In most cases, an employee may not make a mid-year change in the amount he or she has elected to contribute to a Flexible Spending Account.
- Money remaining in a Flexible Spending Account at the end of the plan year must be forfeited. Some Flexible Spending Account plans however allow an extension to incur and be reimbursed for eligible claims after the plan year or for funds remaining at the end of the plan year to be rolled over into subsequent plan years. Check with the Plan Administrator or the Summary Plan Description to see if your plan allows either of these provisions.
- Over-the-counter medicines and drugs (other than insulin) are only reimbursable if accompanied by a prescription.

This worksheet can be used to estimate how much you should elect to contribute to each Account.

Health Flexible Spending Account	
Expenses not covered by insurance may include:	
Deductibles, coinsurance or copayments	\$
