

WELDING

Students gain the skills and hands-on experience needed for a successful welding career. By combining classroom instruction with hands-on learning, they master various welding techniques, as well as cutting, blueprint reading, and metal fabrication. The curriculum offers a broad exposure to the operation, standards, and current practices in welding and metal fabrication, with a focus on safety, precision, and the use of industry-standard tools and equipment. In their classroom workshop, students practice their skills by building real projects for community use.

CAREER OPPORTUNITIES:

- Custom fabricator
- Military
- Pipefitter
- Underwater welder
- Welder, including aerospace, aircraft, bridge, rail road, and shipyard
- Welding equipment sales
